[¥] Affiliation Three

The Word template for the conference defines **Word Styles**, which allow you to properly format your paper for our proceedings.

[See this video for a quick tutorial on applying Word styles.](#)

Canadian Conference on Artificial Intelligence (Canadian AI 2022) will take place in Toronto but also online, from 30 May to 3 June 2022. The event is collocated with the Canadian Conference on Robot Vision (CRV) conference. These events (AI-CRV 2022) will bring together leaders in research, industry, and government, as well as Canada's most talented students. They showcase Canada's ingenuity, innovation and leadership in science and advanced information and communications technology. The abstract should be 150-250 words in total.

keyword1, keyword2, keyword3, up to 6

1. Introduction

We invite papers to the Canadian Conference on Artificial Intelligence, either theoretical or applied. Canadian AI 2022 welcomes submissions on topics including (but not limited to):

- Agent Systems
- AI Applications
- Automated Reasoning
- Bioinformatics and BioNLP
- Case-based Reasoning
- Cognitive Models
- Constraint Satisfaction
- Data Mining
- Ethics of Artificial Intelligence
- Evolutionary Computation
- Games
- Information Retrieval and Search
- Intelligent Tutoring Systems
- Information and Knowledge Management
- Knowledge Representation and Reasoning
- Machine Learning
- Multimedia Processing
- Natural Language Processing
- Neural Nets and Deep Learning
- Planning
- Privacy and Security
- Robotics
- Uncertainty
- User Modeling
- Web Mining and Applications

Figure 1. List of topics

We expressly encourage work that cuts across technical areas and is applied in the context of important domains such as e-commerce, games, healthcare, sustainability, transportation, Internet of Things, and agriculture.

The article is licensed under a Creative Commons Attribution (CC BY 4.0) International license (<https://creativecommons.org/licenses/by/4.0/legalcode>), except where otherwise indicated with respect to material included in the article. The article should be attributed to the author(s) identified above.

Apply style **Heading 1** for the first level of headings, **Heading 2** for second level, etc.

Apply style **Normal** for the body text.

Insert a caption at the bottom of your figures and tables.

Moreover, we plan to have a collocated event on Ethics of AI, with a joint invited keynote and other activities related to this topic. We therefore encourage papers highlighting research in this specific area.

We also welcome the submission of position papers, which present evidence-based arguments for a particular point of view without necessarily presenting a new system. There will be an option during the submission process to indicate that a paper is a position paper.

1.1. Important Dates

Submission deadline	See our website https://www.caiac.ca/en/conferences/canadianai-2022/call-papers
Author notification	See our website
Final papers due	See our website
Main conference	See our website

Table 1. Importantes dates

2. Submission Details

We invite submissions of both long and short papers. Long papers must be no longer than **12 pages**, and short papers must be no longer than **6 pages**, including references, formatted using the conference template. The authors should consult the authors guidelines and use the provided proceedings template to prepare their papers [1,2].

Papers submitted to the conference must not have already been published, or accepted for publication, or be under review by a journal or another conference. Submissions will go through a **double-blind** review process by Program Committee members to assess originality, significance, technical merit, and clarity of presentation. As such, submissions must be anonymized, and papers that fail to do so will be rejected without review. A Best Paper Award and a Best Student Paper Award will be given at the conference respectively to the authors of each best paper, as judged by the Best Paper Award Selection Committee.

3. Publication

The conference proceedings will be published in PubPub open access online format [3] and submitted to be indexed/abstracted in leading indexing services such as DBLP, ACM, Google Scholar. A paper will be accepted either as a long or as a short paper. Long papers will be allocated 12 pages while short papers will be allocated 6 pages in the proceedings. Authors of accepted papers will be allocated time for an oral presentation at the conference and will have the opportunity to present their work in a poster session.

At least one author of each accepted paper is required to attend the conference to present the work. The authors must agree to this requirement prior to submitting their paper for review.

In addition, the corresponding author of each paper, acting on behalf of all of the authors of that paper, must complete and sign a Consent-to-Publish form. The corresponding author signing the copyright form should match the corresponding author marked on the paper.

Acknowledgements

Canadian AI is sponsored by the Canadian Artificial Intelligence Association (CAIAC) [4].

Appendix A. Example of math equation

Binomial theorem: [5]

$$(x + y)^n = \sum_{k=0}^n \binom{n}{k} x^{n-k} y^k \quad (\text{A.1})$$

Square brackets and numbers are used to refer a paper. Number should be following an ascending order. The reference below presents successively a conference [1], a paper [2], a publishing platform [3], a URL [4].
